SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

1. Project Overview

The proposed platform will be a unified Taxi, Hotel Management, Food Delivery, Tour & Travel application designed specifically for Dima Hasao district, Assam, with the capability to expand across Assam, Northeast India and eventually other regions.

The platform will connect tourists, local residents, taxi operators, hotels, restaurants, tour operators and administrators through a single digital ecosystem.

Main Modules

- Taxi & Local Transportation
- Hotel Booking & Hotel Management
- Food Ordering & Delivery
- Tour & Travel Packages
- Tourist Services
- Vendor Management
- Master Admin Panel

2. User Applications

A. Customer / Tourist App – Android & iOS

Users can register through mobile number and OTP and access all tourism and local services from one application.

Taxi Booking

- Local taxi booking
- Airport/Railway station transfer
- Point-to-point booking
- Outstation taxi booking
- Full-day/hourly taxi rental
- One-way and round-trip booking
- Scheduled taxi booking
- Driver details and vehicle information
- Live driver location tracking

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Estimated fare calculation
- Ride status notifications
- Start/end trip through OTP
- Digital payment and cash payment
- Ride history
- Invoice generation
- Rating and review
- Emergency/SOS option
- Driver/customer support

Hotel Booking

- Hotel, resort, homestay and lodge listings
- Search by location and dates
- Room availability
- Room categories
- Photos, amenities and descriptions
- Price and occupancy information
- Instant booking/request booking
- Guest details
- Check-in/check-out management
- Booking confirmation
- Cancellation policy
- Online payment
- Booking history
- Hotel ratings and reviews
- Digital invoice

Food Ordering

- Restaurant listing
- Local cuisine and restaurant discovery

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Food categories
- Menu management
- Veg/non-veg classification
- Item customization/add-ons
- Cart and checkout
- Delivery/pickup options
- Order tracking
- Restaurant preparation status
- Delivery partner tracking
- Online payment/COD
- Order history
- Ratings and reviews

Tour & Travel

- Local sightseeing packages
- Dima Hasao tour packages
- Customized tour packages
- One-day and multi-day packages
- Family, couple and group packages
- Trekking/adventure packages
- Nature and cultural tourism packages
- Tourist attraction listings
- Package itinerary
- Package pricing
- Vehicle + hotel + sightseeing packages
- Tour guide booking
- Custom trip enquiry
- Advance payment
- Booking confirmation

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Cancellation management
- Tour history and reviews

3. Hotel Management Module

A separate hotel/vendor panel will allow hotels, resorts, homestays and lodges to manage their operations.

Hotel Dashboard

- Hotel profile management
- Room management
- Room categories
- Room pricing
- Seasonal pricing
- Availability calendar
- Booking management
- Check-in/check-out
- Guest management
- Booking cancellation
- Offers and discounts
- Photos and amenities
- Customer reviews
- Revenue reports
- Payment/settlement reports

Optional Hotel Operations

- Housekeeping status
- Room maintenance status
- Occupancy management
- Staff management
- Restaurant/room-service management
- Basic hotel expense tracking
- Daily sales reports

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

4. Taxi/Driver Management

Drivers and local taxi operators can register and operate through a dedicated module.

Driver Features

- Driver registration
- KYC/document upload
- Driving licence verification
- Vehicle registration
- Vehicle type/category
- Bank/payment details
- Online/offline availability
- Ride request management
- Accept/reject booking
- Navigation
- Customer contact
- Trip start/end OTP
- Earnings dashboard
- Daily/weekly/monthly earnings
- Ride history
- Cancellation management
- Ratings and reviews
- Settlement reports

Vehicle Types

- Hatchback
- Sedan
- SUV
- Traveller
- Local taxi
- Premium vehicle

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Tourist vehicle
- Custom vehicle categories

5. Restaurant & Food Vendor Module

Restaurants can manage their complete online food business.

Features

- Restaurant registration
- KYC/document verification
- Restaurant profile
- Menu management
- Food categories
- Item pricing
- Add-ons/customization
- Availability management
- Order management
- Accept/reject orders
- Preparation time
- Delivery/pickup management
- Offers and coupons
- Sales dashboard
- Customer reviews
- Settlement reports

6. Tour Operator / Travel Agency Module

Tour operators can create and sell tourism packages.

Features

- Agency registration
- KYC verification
- Package creation
- Package itinerary
- Destination management

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Package pricing
- Vehicle inclusion
- Hotel inclusion
- Guide inclusion
- Activity management
- Group-size management
- Availability calendar
- Booking management
- Customer communication
- Package offers
- Booking cancellation
- Revenue reports
- Customer reviews
- Settlement management

7. Delivery Partner Module

For food delivery and other applicable local deliveries.

Features

- Delivery partner registration
- KYC verification
- Online/offline status
- Order assignment
- Accept/reject delivery
- Pickup navigation
- Customer navigation
- Live location sharing
- Pickup confirmation
- Delivery OTP
- Earnings management
- Delivery history

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Ratings
- Settlement reports

8. Master Admin Panel – Web

The administrator will have complete control over the platform.

Dashboard

- Total customers
- Total taxi drivers
- Active rides
- Hotel bookings
- Food orders
- Tour bookings
- Total vendors
- Revenue
- Commission
- Pending settlements
- Cancellation statistics

User Management

- Customer management
- Driver management
- Hotel/vendor management
- Restaurant management
- Tour operator management
- Delivery partner management
- KYC verification
- Account activation/deactivation

Taxi Management

- Vehicle categories
- Fare configuration
- Commission configuration

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Driver approval
- Ride monitoring
- Booking management
- Cancellation management
- Settlement management

Hotel Management

- Hotel approvals
- Room categories
- Pricing
- Availability
- Booking management
- Commission
- Settlement
- Reviews

Food Management

- Restaurant approval
- Categories
- Menu monitoring
- Orders
- Delivery management
- Commission
- Offers
- Settlements

Tour Management

- Tour operator approval
- Destination management
- Package approval
- Itinerary management
- Booking management

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Commission
- Reviews
- Settlements

9. Dima Hasao Tourism Module

A dedicated tourism section can promote the district's destinations and local experiences.

Features

- Tourist destination directory
- Destination details
- Photos/videos
- Location/map integration
- Nearby hotels
- Nearby restaurants
- Taxi availability
- Tour packages
- Tourist attractions
- Local activities
- Travel information
- Emergency/contact information
- Local guides
- Cultural experiences
- Trekking/adventure activities
- Customer reviews

The platform can highlight destinations such as Haflong and other tourist attractions of Dima Hasao, subject to final content and administrative approval.

10. Maps & Location Services

- Google Maps integration
- GPS-based location

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Pickup/drop location
- Route calculation
- Distance calculation
- Live vehicle tracking
- Hotel location
- Restaurant location
- Tourist destination navigation
- Driver navigation
- Estimated travel distance/time

11. Payment & Commission System

- UPI
- Debit/Credit Cards
- Net Banking
- Wallets, where applicable
- Cash payment
- Online booking advance
- Refund management
- Automated commission calculation
- Vendor settlement
- Driver settlement
- Tour operator settlement
- Hotel settlement
- Payment transaction history
- GST/invoice support as applicable

12. Offers & Marketing

- Promo codes
- Discount coupons
- Taxi offers
- Hotel offers

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Food offers
- Tour package discounts
- Festival offers
- First-booking offers
- Referral system
- Push notifications
- Promotional banners
- Featured hotels/restaurants/packages

13. Communication & Notifications

- SMS/OTP
- Push notifications
- Booking confirmation
- Ride status notifications
- Hotel booking notifications
- Food order notifications
- Tour booking notifications
- Cancellation/refund notifications
- Vendor notifications
- Driver notifications
- In-app support/chat where required

14. Ratings & Reviews

Customers can rate and review:

- Taxi drivers
- Hotels
- Restaurants
- Food orders
- Tour operators
- Tour packages
- Guides

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

Admin can monitor, moderate and manage reviews.

15. Customer Support

- Help & support
- FAQ
- Ticket generation
- Booking-related complaints
- Payment complaints
- Taxi complaints
- Hotel complaints
- Food complaints
- Tour complaints
- Cancellation/refund support
- Emergency/SOS assistance

16. Reports & Analytics

Admin and vendors will have access to relevant reports.

Admin Reports

- Booking reports
- Ride reports
- Hotel reports
- Food order reports
- Tour reports
- Revenue reports
- Commission reports
- Vendor settlements
- Customer reports
- Cancellation reports
- Payment reports

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

Vendor Reports

- Sales
- Bookings
- Earnings
- Commission
- Settlements
- Customer ratings

17. Technology & Platform

Customer Application

- Android
- iOS

Service Provider Applications/Panels

- Driver application
- Delivery partner application
- Hotel/vendor panel
- Restaurant panel
- Tour operator panel

Administration

- Web-based Master Admin Panel
- Secure backend/API
- Database management
- Cloud/server deployment

18. Future Expansion – Pan Assam & Pan India

The architecture should be designed for future expansion beyond Dima Hasao.

Possible future capabilities:

- Multi-district operation
- Multi-state operation
- Multi-language support

SCOPE OF WORK

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

- Multi-currency support
- Multiple service areas
- Location-based pricing
- Multiple tax configurations
- Multiple vendor types
- Franchise/branch management
- State-wise admin management
- Pan-India tourism marketplace

19. Key Business Model

The platform can generate revenue through:

- Taxi booking commission
- Hotel booking commission
- Food order commission
- Tour package commission
- Delivery charges
- Convenience/service fees
- Vendor subscription plans
- Featured listing charges
- Promotional advertisements
- Tour/activity booking commission

Project Objective

The final solution will function as a complete digital tourism and local-service ecosystem for Dima Hasao, combining Taxi + Hotels + Food + Tours & Travels in one platform. It will support local residents as well as tourists visiting Dima Hasao and provide local businesses with a digital channel to receive bookings, orders and customers.

SCOPE OF WORK

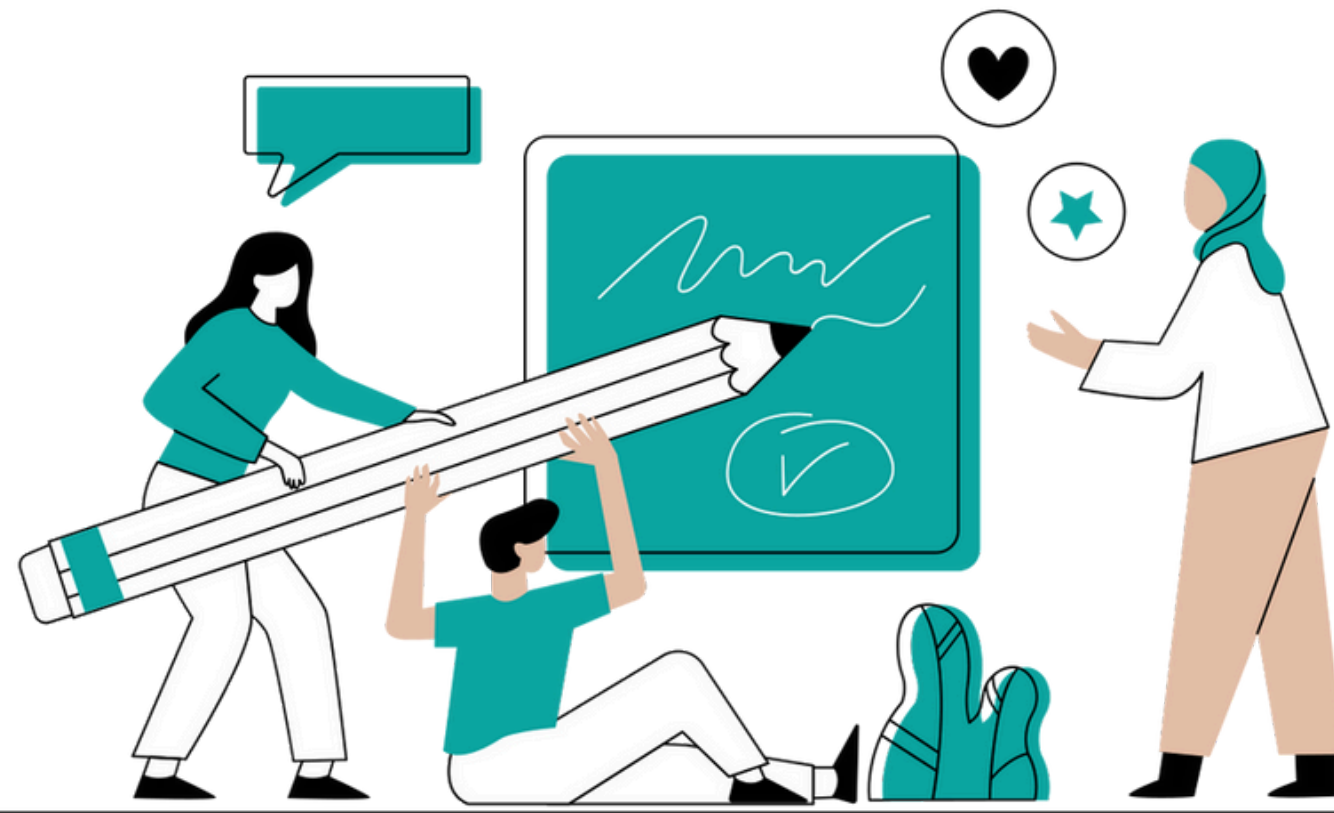

– Integrated Tourism & Hospitality Platform for Dima Hasao, Assam

Government Festival Advertisement & Ticket Booking

- Festival Banners: Display government festivals on the app through attractive image and video banners.
- Festival Details: Show festival name, date, venue, description, images/videos and event information.
- Online Ticket Booking: Users can select festival tickets and book them directly through the app.
- Ticket Categories: Admin can create categories such as General, Premium, VIP, Family Pass, Special Pass, etc.
- Ticket Pricing: Admin can add or change the price of each ticket category.
- Ticket Availability: Display Total Tickets, Sold Tickets and Remaining Tickets in real time.
- Sold Out: Automatically show Sold Out when tickets are completely booked.
- Admin Control: Admin can upload, change or delete festival images/videos, update festival details and manage ticket prices/categories.
- Customer Invoice: After successful ticket booking and payment, the customer will receive a digital invoice showing festival name, ticket category, quantity, ticket price, applicable taxes, discount, total amount, payment status, booking ID and booking date. The invoice can be viewed, downloaded and shared from the app.
- Reports: Admin can view festival-wise bookings, ticket sales, remaining tickets, payments and check-ins.
- Notifications: Send festival announcements, booking confirmations, invoice/ticket confirmation, reminders and ticket availability updates.

APPLICATION TIMELINE: A PLAN FOR SUCCESS

01

Project Inception :

Define project goals, features, and scope.
Conduct market research and competitor analysis.
Assemble a cross-functional project team.

02

Design Phase :

Create wireframes and design prototypes.
Collaborate with UI/UX designers for a visually appealing interface.
Finalize design mockups and seek approvals.

03

Development Sprint :

Implement core functionalities with a modular architecture.
Integrate secure payment gateways.
Conduct regular code reviews and testing.

04

Testing and QA :

Perform functional, performance, and security testing.
Gather user feedback through beta testing.
Optimize based on testing results and user input.

05

Deployment :

Ensure infrastructure readiness for smooth deployment.
Roll out the application in stages or to a limited audience.
Monitor server performance and address issues.

06

Ongoing Support :

Establish user support systems.
Plan and implement regular updates.
Monitor analytics for optimization and upgrades.
